## Coated abrasives

Coated abrasives are abrasive grains, such as Alumina or Zirconia Oxides, bonded to a flexible backing using adhesives. Most common backings are paper, cloth, vulcanized fiber, plastic and velcro films. Our German Quality products range comprise of some of best abrasive Rolls, Belts, Fiber Discs, Mops, and Sheets covering several industries' needs, such as Fabrication, Woodworking, Oil and Gas, Metal and Metal Machinery, Automotive, Construction, Glass, Ceramic, Stone and many more.

## Bonded abrasives

Bonded abrasives are made of an abrasive material contained within a bonded agent for which the most common applications include grinding, polishing, buffing, honing, cutting, drilling, sharpening, lapping, and sanding. Our products portfolio varies from high performing Cutting and Grinding Discs to quality Flexible Abrasives, suitable for different applications such as in Oil and Gas, Metal, Fabrication, Construction, Automotive, backed by more than 125 years of German quality assurance.

## Diamond tools

Diamond tools are cutting tool with diamond grains mixed with a bonded agent fixed on the functional parts of the tool via a bonding material or another method. We do pride in having a wide range of some of the best Diamond Blades, Discs and Tools produced with latest state of the art technologies, engineered in Germany, for several applications such as, to name few, Construction and Stone industries.

## Power tools

We provide one of the largest range of power tools in the market in cooperation with the three best and biggest German producers. Our portfolio comprises Cord and Cordless tools, such as Drills and Grinder, Sander and Sawing tools, Water Pressure machines, Magnetic Drills, Professional Vacuum Cleaner, Special Tools and many more. We do cover a vast array of applications and material processing such as Metal, Wood, Concrete, Stone, Glass, Ceramic, being the preferential partners for large accounts, as well any day to day DIY requirement.

## Hand tools

We offer a product assortment of innovative hand tool solutions geared towards user needs which meet the strictest requirements for quality, functionality, durability and ergonomic design. Our German Quality Hand Tools are among the best in the market covering the requirement for the professional segment, from Electricians, to Modelers or Plumbers, as well the Household Handyman looking for the safest and best tool for his hobbies or repairs. We do provide a wide variety of Screwdrivers, Multitools, Pliers, Front Cutters, Bits, Hammers, Chisels, and Special Tools, such as 10,000 V tested insulated tools, covering several applications such as in Woodworking, Construction, Electrics, Automotive, Maintenance, Plumbing, Oil and Gas, just to name few.

## Safety tools

We provide a full range of ISO certified products for the Personal Protective Equipment (PPE) including protective gears covering head to toe such as Helmets, Face Masks, Garments, Rainwear, Leather Gloves, Nitrile Gloves, and Safety Shoes. As well to offer a one-stop solution, we also deal in eye wear, ear protection, disposable synthetic gloves, and harness.

Being part of Osa and FEPA, we do feel our duty to sponsor the use of PPE and rely on safety at work, while promoting the best and safest standards and materials complementing our full products applications.

## Welding & batteries

We serve the Welding and Automotive industries with the best Italian Welding Machines, Plasma Cutters, and Battery Chargers and Starters. Our products portfolio extent from quality TIG and MIG Machines, to Plasma Cutting Solutions, ranging to a wide assortment of Battery Chargers, Starters, and Converters catering Industrial, Professional and Consumers applications.

## About SHEFA

Founded in 1997, SHEFA developed in few years as one of the main suppliers for diamond tools, abrasive products, and power tools in the Middle East region. As market demand grew extensive, investments were made during the past years opening several shops in United Arab Emirates, Qatar, Oman to stock and supply further hardware tools enabling SHEFA to offer comprehensive delivery range, as well, to the service and trade industries. In the recent years to help strengthening its local presence and improve time to market, a local conversion line for abrasives has been set up in UAE. Last, but not least, in 2015 SHEFA acquired in Sharjah Airport Free Zone a 5,500 m<sup>2</sup> land plot with inbuilt 2,500 m<sup>2</sup> offices and warehouse facility, which has become the new KLINGSPOR Regional Head Office as well its main delivery hub for the Middle East countries.

SHEFA products portfolio covers the full range of KLINGSPOR products, as well several other items from reliable partners such as WIHA, German producer specialized in Hand Tools; TELWIN, Italian maker of Welding and Plasma Cutting Machines as well Battery Chargers and Starters; MALLCOM, Indian manufacturer of high quality Safety Items; EUROBOOR, Dutch origin company specialized in Magnetic Drilling machines, Annular Cutters, Beveling and Sawing machines; METABO, BOSCH and FLEX, the major three German producers of Power Tools; as well many more products and accessories for the industries covered.

Since April 2018 SHEFA has become part of KLINGSPOR Group, among the top five abrasives producers in the world with head office in Germany, giving the possibility to boost KLINGSPOR presence in the Middle East region as well to move towards the market in a stronger way.
